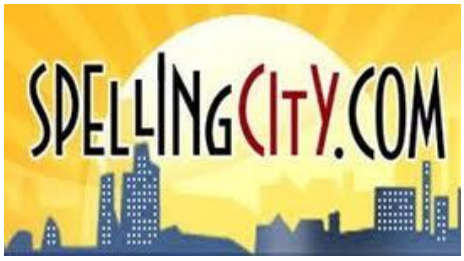
The Third Grade Gazette

Our Vision: Excellence Every Day, In Every Way
Our Mission: Inspiring Learners to Lead: Learn, Excel, Achieve, Dream



Spelling will begin next week. Spelling words will be sent home on the agenda book insert. They can also be found on our third-grade website. Students will use the Spelling City website to practice their spelling words and take tests. **Spelling tests will be given on Thursday each week.** Please use the login information found on the parent letter that was sent home and/or on the inside cover of their agenda book to help your child use the Spelling City website at home. If you have any questions, please contact me.

STUDY MATH FACTS!

Math facts must be practiced at home in addition to school. We begin the year reviewing addition and subtraction and we will start multiplication the end of September. A great way to practice math facts at home would be to buy flash cards or make flash cards on index cards or any paper you may have handy at home. Students love to use dry erase boards. If you have one at home, then this could be a good way to practice answering problems quickly while writing the answers. At least 10-20 minutes of math fact practice is recommended each night. Don't forget that students can use xrtamath.org at home for a quick, nightly practice. Set up a routine to help your child learn their math facts!
